

To whom it may concern:

I have had a Facebook account for several years. Be advised that recently Facebook has block my access to my profile. They are requesting that I upload an official government or state ID. Facebook is clearly in direct violation of the rules and regulations within the Privacy act. Facebook accounts are hacked daily. Therefore, Facebook does not possess the proper devices or the necessary guidance to safeguard users' personal and information per the 1988 amendment to the Privacy concerning the use computers and digital file transfer of information. If they have any concerns regarding a user's account, they must notify the proper authorities instead of taking matters upon themselves. They are not a government agency and do not possess the proper tools to safeguard its users' critical information. If they insist in requiring an upload of my ID, I need them to close my account completely. I may be reached via email at antonio.j.garcia19@gmail.com or at 214.606.5412, in case there are any questions. Thank you in advance for your assistance.

Respectfully submitted,

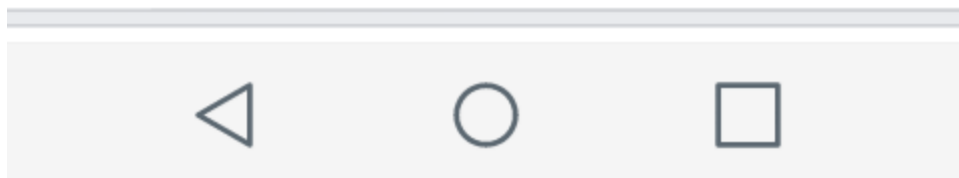

Jose Antonio Garcia

## Other Types of ID

If you don't have a government-issued photo ID, you can upload two alternate forms of ID. We accept:

- Company or school ID
- Library or gym membership card
- Birth certificate
- Social security card
- Bank statement
- Utility bill

Together, the two IDs should clearly show your name, birthday, and photo.
